Welcome to the Royal Canadian Riding Academy—RCRA!

The RCRA is a professional equestrian center providing coaching for all ages and levels. RCRA is a place for beginners to expert riders.

Our camps offer focused equestrian instruction and horsemanship. A student can greatly improve their skills during camp in a safe, supporting, professional and exciting atmosphere. Rider's accomplishments including riding and horsemanship, which would normally take about three months to achieve, can be realized in five fun-filled days.

The benefits of riding are many including: developing body awareness, improving fitness, problem-solving, psychological health, positive character and confidence building, improving responsibility, making new equestrian friends (socialization) and "a return to nature" to name a few.

Enclosed in this Welcome package are:

- Initial Welcome Letter and information;
- RCRA March Break Registration Form (one per camper please); and
- RCRA Agreement for release and Waiver;

Our goal at the RCRA is to introduce the students to riding and the care of horses and to continue to enhance those skills. Our standards are aligned with the Ontario Equestrian Association and our riding lesson programs cater to a wide range of students and abilities/disciplines. If you want to ride competitively, recreationally, or therapeutically we will help you to meet your goals.

Our March Break program includes riding lessons in the morning, Lunch, riding in the afternoon, before and after care of the horses and fun extra-curricular activities for a wonderful holistic riding and social experience.
